

Nareenthiran Bhuvaneshwaran

AI Engineer | Data Scientist

nareenthiran5@gmail.com | +60167459771 | Cyberjaya, Malaysia | LinkedIn | Website

SUMMARY

Exceptional Data Science undergraduate at Multimedia University (3.94 CGPA, Yayasan Telekom Malaysia Scholar) with a proven record of bridging theoretical machine learning with robust software architecture. Possesses advanced technical proficiency in Python, FastAPI, Next.js, and Docker. Demonstrated expertise in engineering sophisticated artificial intelligence solutions, including Large Language Model RAG pipelines, temporal-weighted recommendation algorithms, and real-time computer vision systems. Notably developed comprehensive enterprise workflow automations at Juara Partners during internship and an automated publication reviewer recommendation platform leveraging citation graph embeddings. A dedicated academic leader and former Vice President of Student Academics, committed to applying rigorous analytical skills to complex full-stack development challenges.

PROFESSIONAL EXPERIENCE

Juara Partners, Data Science & AI Engineer Intern 07/2025 – 10/2025 | Kelana Jaya

- Proactively expanded technical expertise by mastering OCR, Meta Integrations, and Webhook implementations.
- Leveraged these capabilities to architect and deploy n8n-powered automation projects, including dynamic tracking systems and chatbots.

EDUCATION

Bachelor, Computer Science (Hons.) (Data Science), Multimedia University 07/2023 – Present | Cyberjaya, Malaysia

- GPA: Current CGPA: 3.90
- Dean's List in every Long Trimesters

Foundation, Information Technology, Multimedia University 07/2022 – 07/2023 | Cyberjaya, Malaysia

- GPA: CGPA: 3.91
- Dean's List Trimester 3- 2021/2022, Dean's List Trimester 1- 2022/2023, Dean's List Trimester 2- 2022/2023

Highschool diploma, Sijil Pelajaran Malaysia, SMK Bukit Mewah 01/2021 – 02/2022 | Seremban, Malaysia

- GPA: SPM Results: 5A+, 3A, 2A
- Received A in all subjects in SPM (10A)

SKILLS

Interpersonal Skills	Analytical Skills	Management Skills	Programming Skills
Curiosity and Continuous Learning, Communication Skills, Leadership, Creativity	Problem-Solving, Attention to Detail, Project Analysis, Data Analysis	Project Management, Team Spirit, Time Management	Python, SQL, Flask, R, C++, Java, HTML, CSS, Excel, Power BI

Language Proficiency
Malay (Intermediate), English (Fluent), Tamil (Fluent), Korean (Beginner)

CERTIFICATIONS

AWS Educate Machine Learning Foundations	Introduction to Data Science	Power BI Desktop
- Issuer: AWS Educate - Date: 2025-03	- Issuer: LinkedIn Learning - Date: 2025-03	- Issuer: LinkedIn Learning - Date: 2025-03

PROJECTS

ARMS — Automated Reviewer Matching System, Final Year Project 11/2025 – 06/2025

- Built a full-stack academic peer reviewer assignment platform using SPECTER transformer embeddings trained on citation graphs
- Self-scraped 493 experts & 10,817 publications from Google Scholar; applied recency decay for temporal relevance scoring
- Integrated a Groq 120B LLM RAG pipeline to generate explainable per-recommendation justifications
- Achieved 89.3% expert-level relevance at 0.4s per query on a real conference dataset

FocusMirror — Real-Time Focus Tracker, Personal Project 06/2026 – 06/2026

- used MediaPipe Face Mesh (Eye/Mouth Aspect Ratio) with GPU-accelerated YOLOv8 phone detection via a custom debounced state machine
- Streamed live classification results (Focused / Distracted / Sleepy / Away) via FastAPI WebSocket to a Next.js/TypeScript frontend
- Exported session analytics (time-per-state, phone pickups, focus streaks) to CSV; fully local, zero data leaves the device

LLM-Powered WhatsApp Chatbot, Internship Project 07/2025 – 08/2025

- Architected and deployed a self-hosted chatbot using Docker, Cloudflare, and n8n workflow automation
- Integrated Meta Business API for WhatsApp routing; built real-time Custom Agent Console in Next.js via ngrok
- Extended at Juara Partners with OCR pipelines and webhook-based automation systems

CO-CURRICULAR ACTIVITIES

Data AI Community, Skills Development Head 01/2026 – 07/2026

Hosted two technical workshops at Agmo Space, MMU. First one on n8n automation covering Docker and Cloudflared setup for self-hosted workflows, another on Power BI focused on data analytics and visualization. Giving MMU students hands-on experience with practical tools.

SRC MMU, Vice President of Student Academics and Excellence 01/2023 – 2024

I was advising the SAED division and overlooking all the academic matter in MMU such as Academic Calendar, Internship Programs and working closely with Career Connect Department in MMU.

SRC MMU, Executive Officer of Students' Academic and Education Division (SAED) 01/2022 – 2023

I did quite a number of contribution to the MMU Community such as opening new study spaces in 2 faculties benefiting 500+ students, extending library operation hours and enforcing the rules and regulations of the library.
